Application Architecture Best Practices

Jurnal.id

2018

- Marketing website with Astro SSG, admission portal with lead capture, applicant self-service, document review, payment verification via Kafka, WhatsApp notifications
- *Go, Astro, Templ, HTMX, Alpine.js, Tailwind CSS, PostgreSQL, Kafka, Cloudflare Workers*

Financial Management System

Yayasan Sahabat Quran

⌚ 2026

- Foundation financial management with student/teacher master data, attendance tracking, salary calculation, operational expenses, reporting
- *Go, HTMX, Alpine.js, Tailwind CSS, PostgreSQL, Playwright*

High Availability SSO Infrastructure

PT Kereta Api Indonesia

⌚ 2025

- Production-ready Keycloak SSO with PostgreSQL replication, OpenLDAP federation, HAProxy load balancing
- *Keycloak, PostgreSQL, OpenLDAP, HAProxy, Ansible, Docker*

HSM Simulator

ArtiVisi Intermedia

⌚ 2025

- Educational HSM simulator for payment training with PIN encryption, MAC generation, key ceremony, and inter-bank key exchange
- *Java 21, Spring Boot, PostgreSQL, AES-256, ISO-8583 PIN Blocks*

Sharia Banking System

ArtiVisi Intermedia

⌚ 2025

- Sharia-compliant banking with Wadiah, Mudharabah savings, Islamic financing products, approval workflows
- *Java 21, Spring Boot, PostgreSQL, Thymeleaf, Tailwind CSS*

Accounting System

ArtiVisi Intermedia

⌚ 2025

- SMB accounting with Indonesian tax compliance (PPN, PPh), payroll, fixed assets, inventory
- *Spring Boot, PostgreSQL, Thymeleaf, HTMX, Alpine.js, ZAP DAST, Ansible, Pulumi*

Islamic Education Management

Yayasan Sahabat Quran

⌚ 2024

- Student registration, class scheduling, academic planning, performance analytics
- *Spring Boot, PostgreSQL, Thymeleaf, Bootstrap*

Sharia Insurance Onboarding

Client Undisclosed

⌚ 2023

- New customer registration, underwriting, payment integration
- *Java, Spring, Microservice, SOAP*

Seaport Management System

Pelabuhan Tiga Bersaudara

⌚ 2022

- Pilotage Management, Integration with Kemenhub App, Integration with Bank Payment

CMMI Dev Implementation

Abhimata Persada

⌚ 2017

CMMI Dev Implementation

Anabatic Technologies

⌚ 2015

Java Application Best Practices

VeriTrans

⌚ 2013

- *Java, Spring, Microservice, SOAP*

Virtual Account Integration

STEI Tazkia

□ 2018

- Integrating automated virtual account payment from 3 banks (BSM, BNI, CIMB)
- *Java, Spring, Microservice, REST, SOAP*

Academic Information System

STEI Tazkia

□ 2017

- Students Enrollment, Tuition Fee Payment, Academic Administration, HR, etc
- *Java, Spring, Microservice, OAuth*

Payment Switching System

ArtiVisi Intermedia

□ 2013

- Switching application connecting and intermediating among multiple payment endpoint
- *Java, ISO-8583*

Payment Gateway System

ArtiVisi Intermedia

□ 2011

- Front office and back office application for billing payment outlet
- *HTML, JavaScript, Java, ISO-8583*

EDC Server

G4S Euronet

□ 2010

- Server application for managing multiple EDC devices
- *Java, ISO-8583*

ATM Integration

Bank Windu Kencana Indonesia

□ 2008

- Connecting between core banking application and ATM BCA network
- *Java, Spring Framework, Hibernate, ISO-8583*
