SELECTED PROJECTS

Campus Website & Admission System – STMIK Tazkia Marketing website with Astro SSG, admission portal with lead capture, applicant self-service, document review, payment verification via Kafka, WhatsApp notifications [<i>Go, Astro, Templ, HTMX, Alpine.js, Tailwind CSS, PostgreSQL, Kafka, Cloudflare Workers</i>]	2026
Financial Management System – Yayasan Sahabat Quran Foundation financial management with student/teacher master data, attendance tracking, salary calculation, operational expenses, reporting [<i>Go, HTMX, Alpine.js, Tailwind CSS, PostgreSQL, Playwright</i>]	2026
High Availability SSO Infrastructure – PT Kereta Api Indonesia Enterprise single sign-on platform with high availability and directory integration [<i>Keycloak, OAuth 2.0, OpenID Connect, SAML, Ansible, Docker</i>]	2025
HSM Simulator – ArtiVisi Intermedia Educational HSM simulator for payment training with PIN encryption, MAC generation, key ceremony, and inter-bank key exchange [<i>Java 21, Spring Boot, PostgreSQL, AES-256, ISO-8583 PIN Blocks</i>]	2025
Sharia Banking System – ArtiVisi Intermedia Sharia-compliant banking with Wadiah, Mudharabah savings, Islamic financing products, approval workflows [<i>Java 21, Spring Boot, PostgreSQL, Thymeleaf, Tailwind CSS</i>]	2025
Accounting System – ArtiVisi Intermedia SMB accounting with Indonesian tax compliance (PPN, PPh), payroll, fixed assets, inventory [<i>Spring Boot, PostgreSQL, Thymeleaf, HTMX, Alpine.js, ZAP DAST, Ansible, Pulumi</i>]	2025

Islamic Education Management – Yayasan Sahabat Quran	2024
Student registration, class scheduling, academic planning, performance analytics <i>[Spring Boot, PostgreSQL, Thymeleaf, Bootstrap]</i>	
Sharia Insurance Onboarding – Client Undisclosed	2023
New customer registration, underwriting, payment integration <i>[Java, Spring, Microservice, SOAP]</i>	
Seaport Management System – Pelabuhan Tiga Bersaudara	2022
Pilotage Management, Integration with Kemenhub App, Integration with Bank Payment <i>[Java, Spring, Microservice, SOAP]</i>	
Virtual Account Integration – STEI Tazkia	2018
Integrating automated virtual account payment from 3 banks (BSM, BNI, CIMB) <i>[Java, Spring, Microservice, REST, SOAP]</i>	
Academic Information System – STEI Tazkia	2017
Students Enrollment, Tuition Fee Payment, Academic Administration, HR, etc <i>[Java, Spring, Microservice, OAuth]</i>	
Payment Switching System – ArtiVisi Intermedia	2013
Switching application connecting and intermediating among multiple payment endpoint <i>[Java, ISO-8583]</i>	
Payment Gateway System – ArtiVisi Intermedia	2011
Front office and back office application for billing payment outlet <i>[HTML, JavaScript, Java, ISO-8583]</i>	
EDC Server – G4S Euronet	2010
Server application for managing multiple EDC devices <i>[Java, ISO-8583]</i>	
ATM Integration – Bank Windu Kencana Indonesia	2008
Connecting between core banking application and ATM BCA network <i>[Java, Spring Framework, Hibernate, ISO-8583]</i>	

TRAINING EXPERTISE

Generative AI for Business Productivity – Claude & LLM Agents, Prompt Engineering, AI-Assisted Research, Prospect Profiling, Document Automation, Portfolio Monitoring <i>(Bank Syariah Indonesia)</i>	<i>(Bank BCA, Visionet Data Internasional, Induk Koperasi Kredit)</i>
Site Reliability Engineering – SRE Fundamentals, Linux Administration, Docker, High Availability, Incident Response <i>(ArtaJasa)</i>	Java & Spring Framework – Spring Boot, Spring Security, JPA, REST API, Reactive Programming <i>(TelkomSigma, Bank Jateng, Doku, eBDesk, Pegadaian, Ministry of Finance)</i>
Microservices Architecture – Spring Cloud, API Gateway, Service Discovery, Config Server <i>(Bank BCA, Blanja.com, Generali Insurance, Chubb Insurance)</i>	Application Security – OWASP Top 10, SAST (SpotBugs, CodeQL), DAST (OWASP ZAP), OAuth 2.0, SSO <i>(MTI/Yokke, Indonesian Government, Direktorat Jenderal Pajak)</i>
DevSecOps & Kubernetes – Docker, Kubernetes, CI/CD, SAST/DAST Integration, Security Scanning Pipelines <i>(Ditjen Bea Cukai, Asuransi Kredit Indonesia, Bank BCA)</i>	Automated Testing – Selenium, Functional Testing, Test Automation <i>(Kemenkominfo, Brainmatics)</i>
Payment Systems (ISO-8583) – Payment Gateway, ATM/EDC Integration, Bank Switching, Spring Boot + jPOS	CMMI & Process Improvement – CMMI Dev, SCAMPI-A, Process Definition, Quality Management <i>(Anabatic, Brainmatics, Traspac)</i>

CONSULTING ENGAGEMENTS

DevOps Best Practices – Lembaga Administrasi Negara	CMMI Dev Implementation – ICON+	2023
Software Engineer Competence Standard – PT Telkomsel	Application Architecture Best Practices – Jurnal.id	2018
2022	CMMI Dev Implementation – Abhimata Persada	2017
Single Sign On Implementation – PT Kereta Api Indonesia	CMMI Dev Implementation – Anabatic Technologies	2015
2021	Java Application Best Practices – VeriTrans	2013

EDUCATION

Islamic Economy	2020
<i>Institut Agama Islam Tazkia</i>	Bogor
Teknik Industri	1997–2001
<i>STT Telkom</i>	Bandung
